

January 25, 2016

Dear Rose,

Well it has been a week since Dad passed and I wanted to take a moment to write and thank you for all you and your loving staff did for him in his final years. Nothing I can say will express the gratitude and respect I have for what you have done for my father and continue to do every day in the lovely home that you provide for our loved ones.

Your willingness, understanding and great compassion for my situation was above and beyond what anyone would have expected of a care facility and I am thankful everyday for YOU. You allowed me to go thorough my difficulties knowing that Dad was safe, well cared for and most of all loved and respected.

And on a personal level, your words of advice and encouragement to me were heard and taken to heart. They continue to help me get through my days knowing there is hope for a brighter future. And that all the struggles shape us and make us in to strong and amazing people like you!

The entire staff there is amazing and each deserves individual recognition for what they do but I wanted to acknowledge Connie as she was Dad's primary caretaker. She was more than just sweet and nice to my Dad; she cared for him with a great amount of love. She was able to get him to participate in crafts and activities that I never would have been able to. She also gave him something very important that he desperately needed, loving human contact. I often saw her touching him, rubbing his shoulders or back, comforting him. It was this simple act of human contact that I am sure made him feel wanted and loved.

So thank you Rose again for providing a wonderful home for my father in his last years and for providing me with the peace of mind to carry on with my complicated life knowing he was ok. I can never repay you but I will always be grateful!

Sincerely,

Sally A. Bacon
